

LOKESH PATIL

Software Engineer | Python Backend & Full Stack | GenAI
+91 9607018217 | patillokesh1105@gmail.com | Pune, Maharashtra, India | [linkedin.com/in/lokeshpatil11](https://www.linkedin.com/in/lokeshpatil11)

PROFESSIONAL SUMMARY

Software Engineer with 2+ years of experience building production-grade backend services, REST APIs, data pipelines, and fullstack applications using Python, FastAPI, Node.js, React, and cloud platforms. At Colgate-Palmolive, delivered enterprise data automation processing 80,000+ product records, improving processing efficiency by 85% and reducing pipeline runtime from 26 hours to 4 hours. Hands-on experience building GenAI applications using LangChain and OpenAI, with experience across API development, asynchronous processing, CI/CD, and GCP.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), SQL

Backend: FastAPI, Flask, Node.js, Express.js, REST APIs, SOAP APIs, GraphQL, Async Programming, Background Jobs

Frontend: React.js, HTML5, CSS3

AI / GenAI: LangChain, LangGraph, OpenAI API, Gemini, RAG, LLM Applications, Agentic AI

Databases: MySQL, MongoDB, Pinecone, Vector Databases

Cloud & DevOps: GCP, AWS, GitHub Actions, CI/CD, Git, GitHub

Engineering: API Design, Data Pipelines, Secure Coding, Unit Testing, Code Reviews, Performance Optimization, Agile/Scrum

WORK EXPERIENCE

Full Stack AI Engineer | Colgate-Palmolive | Mumbai, India Jul 2024 – Present

- Designed and developed a production GenAI-powered content localization application using **Python, FastAPI, LangChain, and OpenAI**, translating marketing content from Stibo STEP into user-selected languages.
- Architected an asynchronous **MDM–Stibo STEP data automation pipeline using Node.js**, processing **80,000+ product records** and improving processing efficiency by **85%**.
- Optimized a critical data pipeline, reducing end-to-end runtime from **26 hours to 4 hours (~85% reduction)** through asynchronous processing and performance improvements.
- Developed and maintained secure **REST APIs using FastAPI and Flask** supporting cross-regional product content syndication across the **US, Europe, and Brazil**.
- Built reusable **React.js** components for internal content and operations teams, improving frontend maintainability and integration across backend services.
- Implemented **CI/CD pipelines using GitHub Actions and GCP**, automating build, test, and deployment workflows and improving release reliability.

Intern, Full Stack Development | Colgate-Palmolive | Mumbai, India Jan 2024 – Jul 2024

- Developed the **Hills Feeding Guide Web App v2** using React.js and FastAPI, reducing application latency by **17%** through background-job optimization and performance improvements.
- Implemented secure frontend functionality for the **Secure Share App**, including OTP authentication and input validation, following enterprise secure-coding practices.

PROJECTS

Ingredient Extraction Pipeline | Vertex AI | Colgate-Palmolive

- Contributed to a **Vertex AI computer-vision pipeline** that extracts structured ingredient information from product packshot images.
- Developed the demo and validation layer used to present extraction results and accuracy to business stakeholders.

EDUCATION

Bachelor of Technology — Computer Engineering | Savitribai Phule Pune University, Pune, India | CGPA: 8.4/10 | 2020–2024

LANGUAGES

English (Fluent) | Hindi (Fluent) | Marathi (Native)
